

Medical Policy Manual

Draft Revised Policy: Do Not Implement

Benralizumab (Fasenra®)

IMPORTANT REMINDER

We develop Medical Policies to provide guidance to Members and Providers. This Medical Policy relates only to the services or supplies described in it. The existence of a Medical Policy is not an authorization, certification, explanation of benefits or a contract for the service (or supply) that is referenced in the Medical Policy. For a determination of the benefits that a Member is entitled to receive under his or her health plan, the Member's health plan must be reviewed. If there is a conflict between the medical policy and a health plan or government program (e.g., TennCare), the express terms of the health plan or government program will govern.

POLICY

I. INDICATIONS

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

FDA-Approved Indication

Fasenra is indicated for the add-on maintenance treatment of patients ~~with severe asthma~~ aged 6 12-years and older with severe asthma, and with an eosinophilic phenotype.

Limitations of Use:

- *Not for treatment of other eosinophilic conditions*
- *Not for relief of acute bronchospasm or status asthmaticus*

All other indications are considered experimental/investigational and not medically necessary.

II. DOCUMENTATION

Submission of the following information is necessary to initiate the prior authorization review:

- A. For initial requests:
 1. Member's chart notes or medical record showing pretreatment blood eosinophil count, **or** dependance on systemic corticosteroids if applicable.
 2. Chart notes, medical record documentation, or claims history supporting previous medications tried including drug, dose, frequency, and duration.
- B. For continuation requests: Chart notes or medical record documentation supporting improvement in asthma control.

III. PRESCRIBER SPECIALTIES

This medication must be prescribed by or in consultation with an allergist/immunologist or pulmonologist.

IV. CRITERIA FOR INITIAL APPROVAL

- A. Authorization of 6 months may be granted for members 6 12 years of age or older who have previously received a biologic drug (e.g., Dupixent, Nucala) indicated for asthma.
- B. Authorization of 6 months may be granted for treatment of severe asthma when all of the following criteria are met:

Medical Policy Manual

Draft Revised Policy: Do Not Implement

1. Member is 6 42 years of age or older.
2. Member meets either of the following criteria:
 - i. Member has a baseline blood eosinophil count of at least 150 cells per microliter
 - ii. Member is dependent on systemic corticosteroids
3. Member has uncontrolled asthma as demonstrated by experiencing at least one of the following within the past year:
 - i. Two or more asthma exacerbations requiring oral or injectable corticosteroid treatment.
 - ii. One or more asthma exacerbation resulting in hospitalization or emergency medical care visit.
 - iii. Poor symptom control (frequent symptoms or reliever use, activity limited by asthma, night waking due to asthma).
4. Member has inadequate asthma control despite current treatment with both of the following medications at optimized doses:
 - i. High dose inhaled corticosteroid
 - ii. Additional controller (i.e., long acting beta₂-agonist, long acting muscarinic antagonist, leukotriene modifier, or sustained-release theophylline)
5. Member will continue to use maintenance asthma treatments (e.g., inhaled corticosteroid, additional controller) in combination with the requested medication.

V. CONTINUATION OF THERAPY

Authorization of 12 months may be granted for treatment of severe asthma when all of the following criteria are met:

- A. Member is 6 42 years of age or older.
- B. Asthma control has improved on the requested medication as demonstrated by at least one of the following:
 1. A reduction in the frequency and/or severity of symptoms and exacerbations
 2. A reduction in the daily maintenance oral corticosteroid dose
- C. Member will continue to use maintenance asthma treatments (e.g., inhaled corticosteroid, additional controller) in combination with the requested medication.

VI. OTHER

Member cannot use the requested medication concomitantly with any other biologic drug or targeted synthetic drug for the same indication.

Note: If the member is a current smoker or vaper, they should be counseled on the harmful effects of smoking and vaping on pulmonary conditions and available smoking and vaping cessation options.

APPLICABLE TENNESSEE STATE MANDATE REQUIREMENTS

BlueCross BlueShield of Tennessee's Medical Policy complies with Tennessee Code Annotated Section 56-7-2352 regarding coverage of off-label indications of Food and Drug Administration (FDA) approved drugs when the off-label use is recognized in one of the statutorily recognized standard reference compendia or in the published peer-reviewed medical literature.

ADDITIONAL INFORMATION

For appropriate chemotherapy regimens, dosage information, contraindications, precautions, warnings, and monitoring information, please refer to one of the standard reference compendia (e.g., the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®) published by the National Comprehensive Cancer Network®, Drugdex
